

42-circuit distribution box 110mm depth

Article Overview

A 42-circuit distribution box with 110mm depth is available in both flush-mounted metal and plastic designs, suitable for indoor electrical installations with IP40 protection.

Types and Materials

- **Plastic Distribution Boxes:** Typically IP40 rated, recess-mounted, and designed for 42 MCB modules. These boxes are lightweight, corrosion-resistant, and suitable for residential or commercial indoor use. They often feature a modular design for easy installation and maintenance, with a depth around 110mm for compact wall mounting .
- **Metal Flush-Mounted Boxes:** Constructed with a metallic frame and door, these boxes provide enhanced durability and fire resistance. They are designed for 42 modules and can be installed in hollow walls, offering a sleek, organized interior setup .

Key Specifications

- **Module Capacity:** 42 modules or circuits, compatible with standard miniature circuit breakers (MCBs) and some bolt-on or plug-on breakers depending on the model .
- **Depth:** Approximately 110mm, suitable for standard wall recesses or surface mounting depending on the model.
- **Protection Rating:** IP40 for indoor use, protecting against solid objects larger than 1mm but not water ingress .
- **Mounting Options:** Flush-mounted for a clean finish or surface-mounted dependin...
