

Data Center Vertical Cable Tray Prices

Article Overview

Vertical cable trays for data centers typically range from \$50 to \$300 per unit, depending on material, size, and supplier.

Price Overview

Vertical cable trays are essential for organizing and supporting cables in multi-level data center environments. Prices vary based on material, load capacity, and customization:

- **Steel Trays:** High-strength carbon steel trays, often galvanized or powder-coated for corrosion resistance, are commonly priced between \$100 and \$250 per tray for standard sizes, offering maximum durability and load-bearing capacity .
- **Aluminum Trays:** Lightweight and corrosion-resistant, aluminum trays are slightly less expensive, typically \$80 to \$200 per tray, suitable for moderate load applications and coastal environments .
- **Fiberglass/Polymer Trays:** Non-conductive and chemical-resistant trays are ideal for high-voltage or hazardous areas, with prices ranging from \$150 to \$300 per tray depending on size and specifications .

Supplier Examples

- **Alibaba:** Offers a wide range of vertical cable trays with customizable dimensions and materials. Prices start as low as \$50 per unit for basic steel or aluminum trays, with bulk discounts available for large orders .
- **RackSolutions:** Provides vertical cable management trays specifically for their 750...
