

Distribution Box 1PG

Article Overview

Distribution Box 1PG is a compact, modular solution for decentralized power and signal distribution, offering flexible wiring, mounting, and protection options.

Overview

Distribution Box 1PG is designed for efficient connection of sensors, actuators, and control devices in industrial automation systems. It provides a space-saving, cost-effective, and reliable solution for both power and signal distribution, suitable for applications requiring modular and decentralized setups .

Key Features

- **Modular Design:** Components can be customized according to application needs, allowing easy replacement or expansion .
- **Wiring Options:** Supports PNP and NPN wiring configurations, with status indicators available for monitoring .
- **Cable Compatibility:** Can accommodate cables ranging from 0.5 mm² to 10 mm² using push-in or insulation displacement connections .
- **Mounting Flexibility:** Can be mounted on DIN rails, surfaces, or using fixing lugs for screws and nails, enabling versatile installation .
- **Protection Class:** Offers IP65 or IP67 protection, ensuring resistance to dust and water ingress, suitable for harsh industrial environments .
- **Compact and Stackable:** Many models are stackable and equipped with fixing ears or plates for secure attachment .
- **Integrated LEDs:** Some variants include LEDs for troubleshooting and status monit...
