

How much do household electrical distribution boxes cost in Germany

Overview

The average cost for replacing a distribution board typically ranges from €400 to €1. This range depends on the number of circuits, desired upgrades such as additional earth leakage circuit breakers, the brand of components, the presence of a main switch, and the electrician's. For indoor use, you can choose between surface-mounted and flush-mounted distribution boxes. Now that you have selected the version, check how many module units you need. Our most popular products based on sales. What do you need?

By checking the box, you consent to the collection and storage of the data you provide for the purpose of contacting and responding to. There are four major types of electrical boxes that people commonly find in Germany.
