

Price of Hollow Protective Sleeve for Drop Optical Cables

Article Overview

Hollow protective sleeves for drop optical cables typically range from \$0.50 to \$3 per piece, depending on size, material, and supplier.

Overview

Hollow protective sleeves, also known as fiber optic splice protection sleeves, are used to safeguard fiber optic splices and connectors from mechanical stress, bending, and environmental exposure. They are commonly made from heat-shrinkable polyolefin, Teflon, or PET, often with a stainless steel rod inside for added mechanical protection. These sleeves are widely used in FTTH (Fiber to the Home) projects, indoor and outdoor cable installations, and in network boxes or ODFs.

Price Factors

The cost of a protective sleeve depends on several factors:

- Size and inner diameter: Larger sleeves (e.g., 40-60mm) or those designed for double steel rods are more expensive.
- Material quality: High-quality heat-shrinkable tubing with pre-shrunk ends and clear fusion liners costs more than basic versions.
- Quantity purchased: Bulk orders from suppliers like Alibaba or Made-in-China reduce the per-unit cost.
- Supplier and region: Prices vary between manufacturers and distributors, with int...
