

Unit Price for Trapezoidal Cable Management System Construction

Article Overview

The unit price for trapezoidal cable management systems varies widely, typically ranging from \$20 to \$150 per meter depending on material, size, and customization.

Price Factors

- Material Type
 - Galvanized Steel: Common for industrial and construction projects; offers high durability and corrosion resistance. Prices are generally mid-range, around \$30-\$80 per meter for standard sizes .
 - Stainless Steel: Higher corrosion resistance and longer lifespan; prices are higher, often \$80-\$150 per meter .
 - PVC or HDPE: Lightweight, corrosion-resistant, and cost-effective; typically \$20-\$50 per meter .
- Dimensions and Load Capacity
 - Trapezoidal cable trays come in various widths, side heights, and thicknesses (1.0 mm to 2.0 mm for steel). Larger or thicker trays designed for heavy cable loads cost more .
 - Ladder-style or trough-type designs with reinforced side rails or hollow structures may increase unit cost due to added material and manufacturing complexity .
- Surface Treatment
 - Hot-dip galvanizing or powder coating improves corrosion resistance but adds to the cost
