

Which fiber optic cable is used in the China-Europe Mobile router

Overview

The anti-resonant hollow-core fibre (AR-HCF) provided by Linfiber Tech achieved a key performance metric over a 20km link, including self-splicing loss of 0. 05 dB, hollow-core to solid-core connection loss of <0. 6 dB/km (including connectors. China Mobile International Limited (CMI) officially activated the PEACE submarine cable on 30 August 2024. A 15,000-kilometer link connecting Singapore and France, and further extending to Malaysia and other European countries, PEACE is designed to provide fast, open and flexible connectivity. Linfiber Tech (Nantong) Co., has collaborated with China Mobile to launch the first 800G hollow-core fibre transmission test network between Shenzhen and Dongguan in Guangdong province. 8M F-km optical cable tender was intense. (referred to as Linfiber Tech, www.linfiber.com).
